

QUICK START GUIDE:

Getting a Volume/Truckload Rate Quote on My Estes

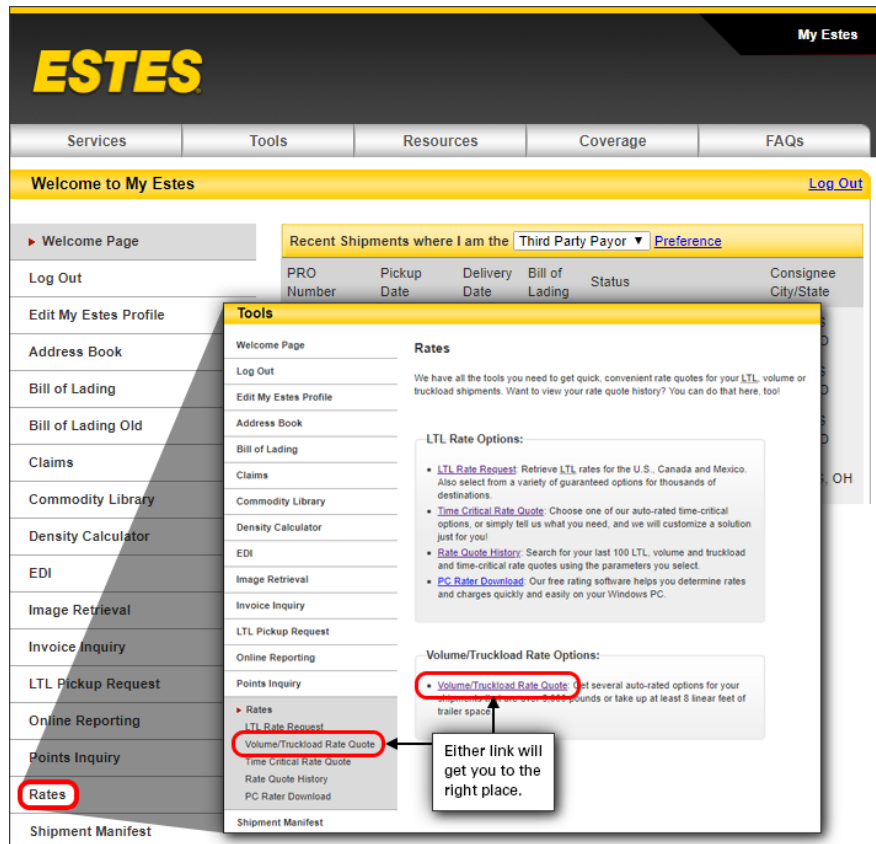

STEP 1

Go to www.estes-express.com and log in to **My Estes**.

STEP 2

On the welcome page, click **Rates**. Then click on **Volume/Truckload Rate Quote**. If you're unsure about which rate tool to use, check out this [handy chart](#) on our website that explains the options.

STEP 3

Fill in the quote details, including Contact and Routing Information, Scheduling, Commodities, Freight Information and Accessorials, and hit **Submit**. Required fields are in ***BOLD**. Note that you can toggle to other rate quote tools using the buttons across the top of the application page. Or, you can go to the quote history to recalculate and book a saved quote.

- 1 Use these tabs to access the different rate tools.
- 2 Quote history includes past quotes from all rating tools in one place—LTL, volume/truckload and time critical.
- 3 The progress bar shows you where you are in the quote process.
- 4 Additional coverage is automatically selected if you input a declared value. Additional coverage is often a desirable choice, but you can decline it by unchecking this box.
- 5 If you need alternative equipment, hover over the ? to see contact information for getting a quote for that service.
- 6 You can add additional comments (up to 100 characters), but when you do, the next screen will instruct you to click **Contact Me** for a volume/truckload rate. We will quickly review details and contact you directly with a quote.
- 7 Expand to see additional accessorials.
- 8 Click **Submit** to see and select service-level options based on the information you provided.

STEP 4

If you chose the Volume and Truckload tab to access rate quotes, the V/TL rates will show at the top, with time-critical and standard-transit LTL rates below for comparison. You'll see the reverse order when you go through the Time Critical Rate Quote tool.

If additional information is needed, **Contact Me** will appear. When you click on it, information you've already input will be sent to either our volume and truckload or time-critical team based on the option chosen. We will contact you directly and develop a customized quote, usually within a few minutes. You'll receive a **Success** message confirming that we have received your information. Or, you can call the number provided to contact the team directly.
